from naomi klein author of the 1 international bestsellers the shock doctrine and no logo a must read on how the climate crisis needs to spur transformational political change we seem to have given up on any serious effort to prevent catastrophic climate change despite mounting scientific evidence denialism is surging in many wealthy countries and extreme fossil fuel extraction gathers pace exposing the work of ideologues on the right who know the challenge this poses to the free market all too well naomi klein also challenges the failing strategies of environmental groups this changes everything argues that the deep changes required should not be viewed as punishments to fear but as a

kind of gift it's time to stop running from the full implications of the crisis and begin to embrace them naomi klein is an award winning journalist syndicated columnist and author of the international bestsellers *The Shock Doctrine* and *No Logo* she is a member of the board of directors for 350.org a global grassroots movement to solve the climate crisis a Puffin Foundation writing fellow at the Nation Institute and a former Miliband fellow at the LSE she holds an honorary doctor of civil laws from the University of King's College Nova Scotia

naomi klein's work has always moved and guided me she is the great chronicler of our age of climate emergency an inspirer of generations greta thunberg the first book for younger readers by internationally bestselling social activist naomi klein the most authoritative and inspiring book on climate change for young people yet warming seas superstorms fires in the amazon the effects of climate change are all around us reforestation school strikes for climate change young people are saving the world and you can join them because you deserve better are you ready to change everything includes notes on the covid 19 pandemic 2020 and how you can get involved to make the world a safer and better place from the great barrier reef to hurricane katrina to school environmental policies to greta thunberg climate change impacts every aspect of the world you live in and you have the power to lead the way by enacting change internationally bestselling author of *The Shock Doctrine* naomi klein with award winning children's science writer rebecca steffoff gives a powerful picture of why and how the planet is changing providing effective tools for action so that you really can make a difference

econarratives are all around us describing and shaping human interactions with other species and the physical environment this book provides a foundational theory of econarrative drawing from narratology human ecology critical discourse analysis and ecolinguistics and offering insights from a rich variety of texts including creation myths indigenous podcasts ethical leadership speeches haiku poetry documentary films new nature writing advertisements and campaigns apocalyptic stories adopting a global transdisciplinary approach it conducts in depth analysis of specific works including the Cherokee myth how the world was made the speeches of Vandana Shiva *Nightwalk* by Chris Yates naomi klein's documentary *This Changes Everything* the podcasts of Mohawk seed keeper Rowen White *The Book of Revelation* and *The Dark Mountain Manifesto* raising awareness of the powerful role that language plays in structuring our lives and society the book reveals narratological and linguistic features that convey activation emotion empathy identity placefulness enchantment compassion and other key factors that shape interactions with the natural world if we want real fundamental change then we must search for new econarratives to live by

over the last 11 700 years during which human civilization developed the earth has existed within what geologists refer to as the holocene epoch now science is telling us that the holocene epoch in the geological time scale ended replaced by the onset of a new more dangerous anthropocene epoch which began around 1950 the anthropocene epoch is characterized by an anthropogenic rift in the biological cycles of the earth system marking a changed reality in which human activities are now the main geological force impacting the earth as a whole generating at the same time an existential crisis for the world's population what caused this massive shift in the history of the earth in this comprehensive study john bellamy foster tells us that a globalized system of capital accumulation has induced humanity to foul its own nest the result is a planetary emergency that threatens all present and future generations throwing into question the continuation of civilization and ultimately the very survival of humanity itself only by addressing the social aspects of the current planetary emergency exploring the theoretical historical and practical dimensions of the capitalism's alteration of the planetary environment is it possible to develop the ecological and social resources for a new journey of hope

the inspiring new book about britain's abandoned and neglected places the opportunities they present for business and communities and how they can help us face the challenges of climate change this is not just a grassroots manual for 21st century survival groundswelling and prophetic it could be a startling blueprint for life in the 22nd tom nancollas author of seashaken houses remarkable exquisitely researched and acutely observed it won't leave me lucy easthope author of when the dust settles this is a book for now when so many feel jaded worn thin and in desperate need of hope kassia st clair author of the secret lives of colour read one page and you will want to keep reading paul hawken author of regeneration frontierlands are britain's forgotten places silt filled harbours overgrown forests sunken railway tracks and empty buildings all once economic engines now abandoned by investors and the state but they are home to local communities and amongst them some remarkable pioneers working together to repair rebuild and prepare for the future hazel sheffield takes her readers on a journey that begins at the coastline and travels inward via hoardings and railway arches factories streets and neighbourhoods to our homes moving from watchet harbour in the south west to gateshead in the north east from lancashire to london and the south east she introduces us to the people who are acting to shape their own destinies people with first hand knowledge of the problems britain faces and with clear ideas how to make things better this is a book about regeneration reclaiming power and the hope that comes from community action about people questioning how the world works and determined to do things differently in the face of economic upheaval and climate crisis people learning to build a new world challenging us all to think about how we should live in the face of certain change immersive and inspiring frontierlands challenges us to reconnect with and reclaim our environment showing that it is possible to regenerate reskill and create opportunities for industry and to

address the challenges of climate change
