how the interface has moved from the pc into cultural platforms as seen in a series of works of net art software art and electronic literature the computer interface is both omnipresent and invisible at once embedded in everyday objects and characterized by hidden exchanges of

information between objects the interface has moved from office into culture with devices apps the cloud and data streams as new cultural platforms in the metainterface christian ulrik andersen and sllren bro pold examine the relationships between art and interfaces tracing the interface s disruption of everyday cultural practices they present a new interface paradigm of cloud services smartphones and data capture and examine how particular art forms including net art software art and electronic literature seek to reflect and explore this paradigm andersen and pold argue that despite attempts to make the interface disappear into smooth access and smart interaction it gradually resurfaces there is a metainterface to the displaced interface art can help us see this the interface can be an important outlet for aesthetic critique andersen and pold describe the semantic capitalism of a metainterface industry that captures user behavior the metainterface industry s disruption of everyday urban life changing how the city is read inhabited and organized the ways that the material displacement of the cloud affects the experience of the interface and the potential of designing with an awareness of the language and grammar of interfaces

suse 10 1 is a major update with new features for home and business linux users and brown offers an in depth look at all these new features and essential components by presenting them in easy to learn modules

small island developing states are often depicted as being among the most vulnerable of all places to the effects of climate change and they are a cause celebre of many involved in climate science politics and the media yet while small island developing states are much talked about the production of both scientific knowledge and policies to protect the rights of these nations and their people has been remarkably slow this book is the first to apply a critical approach to climate change science and policy processes in the south pacific region it shows how groups within politically and scientifically powerful countries appropriate the issue of island vulnerability in ways that do not do justice to the lives of island people it argues that the ways in which islands and their inhabitants are represented in climate science and politics seldom leads to meaningful responses to assist them to adapt to climate change throughout the authors focus on the hitherto largely ignored social impacts of climate change and demonstrate that adaptation and mitigation policies cannot be effective without understanding the social systems and values of island societies

learn how to implement professionally looking graphics into sites and turn static looking interfaces into attractive professional pages focus on the end goals of a project first then implement graphics using photoshop and imageready through practical exercises and projects individuals learn how to produce a successful project in the real world after completing this book users will have the knowledge base needed to succeed as graphic artists and developers

this paper combines the results of a series of pressure treatment tests carried out with 142 commercially important timbers from papua new guinea fiji and the british solomon islands protectorate treatment was effected at standard pressure 1378 kpa 200 lb sq in and at elevated pressure 4134 kpa 600 lb sq in using creosote or a waterborne copper chrome arsenic cca preservative a new treatability classification was developed to permit detailed description of the wide range of penetration patterns obtained the classification draws attention to the many

problems encountered in determining the treatability of timbers from tropical areas
